## ASSEMBLY INSTRUCTIONS

### INSTRUCTIONS FOR USE

Before using the fan, make sure that it is on a flat and stable surface. Storage may occur if it is placed on uneven surfaces. Set all the switches to the fan position, and then insert the plug directly into a standard AC power outlet. Do not use the plug for other electrical devices.

- 1) Press the "ON/OFF" switch to start the fan.
- 2) Press the "ON/OFF" switch to lock the speed wheel.
- 3) 1, 2, 3, 4, 5, 6 (ON) (OFF) speed button.
- 4) To set a timer, press timer to ON. ON to the maximum speed (for sleep or 7 hour mode).
- 5) If you want to change the speed zone of your room, press the "ON/OFF" button. The fan will operate and heat generation will be stopped. To change setting, press on/off the setting button "ON/OFF" (the basic setting is "ON/OFF" and "ON/OFF" is the maximum speed).

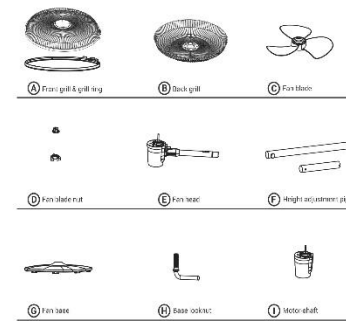

To completely turn off the fan, turn all the controls to OFF and unplug the plug from the electrical outlet.
